

# Add \$60,000 or more to your bottom line

Sound too good to be true? Here's one example.

- 1 Gallon diesel = \$ 2.50
- 1 Truck = 200 Gallons
- 10 Trucks = 2,000 Gallons

\$ 5,000 month stolen from your bottom line!  
\$ 60,000 in lost revenue per year!

You can reverse this trend for  
less than one month's losses.
